

CAPABILITY STATEMENT

Ann Walker Consulting, LLC is owned and operated by Ann Walker. I created my business in 2013 and it continues to be successful at providing education on wildland fire risk, the value of our natural resources, and the importance of clear and actionable mitigation strategies. I have extensive on-the-job training in project management and budget tracking and reporting, development and implementation of wildland fire and land management written plans and policy. I continue to assist with landowner/community disaster preparedness, evacuation, wildland fire suppression, and post-disaster event recovery.

CURRENT CONTRACTS

Coalitions and Collaboratives, Community Navigator – 2023 - Present

Assist CO-CO and their clientele in implementing multiple federal/state grant programs to the public, including tribes and underserved communities.

USDA, Natural Resources Conservation Service – 2023 – Present

Technical writer for updating all of Oregon's county-level long term conservation plans.

Vibrant Planet – 2022 - Present

Assist this public-benefit corporation in understanding the governance of wildfire risk, mitigation measures in alignment with the goals of the National Cohesive Wildland Fire Management Strategy and conservation strategies of partner organizations. Identify opportunities for networking with tribes and non-governmental organizations to improve the health of our more vulnerable landscapes. Provide education on changing climate conditions and impacts.

PAST ACCOMPLISHMENTS

National Association of Conservation Districts – 2020 - 2021

Wildfire program coordination provided for more than 3000 conservation districts in the United States. Create and conduct regional training via Zoom and provide writing services for a desk guide to Accelerate Implementation of the National Cohesive Wildland Fire Management Strategy.

Sierra Nevada Corporation, Consultant/Multi-Mission Aircraft – 2014-2019

Develop and promote regional access to new technology, i.e. multi-mission aerial resources. Coordinated the first out-of-state deployment of the CO Multi-Mission Aircraft Program in Oregon (2015). This platform responds nationally to provide crew overwatch, wildfire detection/analysis to inform decision-makers during multiple fire and flooding events.

USDA, US Forest Service, Contractor/L-581 Trainer – 2014-2015

Provide education on implementation of the National Cohesive Wildland Fire Management Strategy and action plans.

Western Governors' Association, Forest Health & Fire Policy Director – 2008-2016

Non-partisan natural resource policy development with 22 Western Governors.

OR Department of Forestry, National Fire Plan Coordinator – 2004-2008

(Retired June 2019 - employed 1979-1988; 1996-2008)
